PROFESSIONAL SUMMARY

Motivated Junior Full Stack Developer with a focus on cybersecurity and secure coding. Passionate about developing intelligent, user-centered software solutions that solve real-world problems. Skilled in backend and full-stack development using technologies such as Node.js, React, MongoDB Linux, and Docker, and with hands-on experience in building responsive web interfaces using HTML, CSS, JavaScript, Bootstrap, Tailwind, React, and TypeScript. Eager to contribute to innovative teams where I can apply my technical expertise, creativity, and continuous learning mindset to deliver meaningful impact.

EDUCATION

Open-Source Applications Developer - National Telecommunication Institute (NTI - Hire-Ready Course) **Oct 2025 – Jan 2026**

Gained hands-on experience in full-stack web development. The training covers front-end development with React, Next.js, and Vue.js, and backend development using Node.js, Express.js, and both SQL and NoSQL databases.

Bachelor's degree in accounting - Cairo University ***Oct 2018- May 2021***

Built strong analytical, data-driven, and problem-solving skills through an accounting degree, now applied to full-stack development and software design.

Diploma in Fashion Design - October University for Modern Sciences & Arts (MSA) ***Oct 2021 – Sep 2023***

Gained creative design and presentation experience, enhancing attention to detail and visual design sense.

SKILLS

Programming Languages: Python, C++, HTML/CSS, JavaScript.

Databases: MongoDB, MY SQL.

Libraries/Frameworks: React, Bootstrap, Node.js, Next.js, Tailwind CSS, Express JS, Prisma.

Soft Skills: Problem Solving, Communication, Collaboration, Time Management, Adaptability, Continuous Learning, Attention to Detail.

PROJECTS

X-clone social media Next-app | *TypeScript, Node.js, next.js.*

Full-Stack Competencies

- *Developed a full stack application handling both frontend and backend logic*
- *Designed and consumed RESTful APIs*
- *Integrated a relational database (MySQL) into a real-world app*
- *Utilized asynchronous programming patterns in TypeScript*

Practical Coding Skills

- *Stronger understanding of TypeScript's type system*
- *Better modular project architecture*

Estate Hub – Full-Stack Developer (Team Project)

Technologies: React, TypeScript, Redux Toolkit, Tailwind CSS, Node.js, Express, MongoDB, Socket.IO, JWT, Google OAuth, Stripe, Docker, AWS EC2, Nginx, PM2, Vercel

- Collaborated as a full-stack developer on *Estate Hub*, a production-ready real estate web platform built by a cross-functional team.
- Developed and integrated responsive frontend components using React, TypeScript, Redux Toolkit, and Tailwind CSS.
- Implemented backend APIs and business logic using Node.js, Express, and MongoDB.
- Contributed to authentication and authorization flows using JWT and Google OAuth.
- Assisted in integrating payment processing (Stripe) and email notifications (Nodemailer).
- Worked with real-time features using Socket.IO to enhance user interaction.
- Participated in deployment and DevOps workflows, including Docker containerization and hosting on AWS EC2.
- Supported production setup using Nginx as a reverse proxy and PM2 for process management.
- Collaborated using Git and GitHub in a team environment, following structured workflows and code reviews.
