Khairya Abd Elraheem Zedan

Full Stack Developer | Aspiring .NET Developer

khairya.abdelraheem@gmail.com | (+20) 1221761610| GitHub: https://github.com/khairyazedan
Portfolio: https://react-tailwind-portfolio-green.vercel.app/

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building scalable web applications using React, Node.js, and MongoDB. Strong foundation in JavaScript and TypeScript, with growing expertise in backend development using ASP.NET Core and Entity Framework. Passionate about secure coding, problem-solving, and building real-world, production-ready applications.

Key Focus: Backend Development | Web Security | Scalable Systems

---

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React, Tailwind CSS, Bootstrap, TypeScript
Backend: Node.js, Express.js, REST APIs, ASP.NET Core
Databases: MongoDB, MySQL, SQL Server
Tools: Git, GitHub, Docker, Linux
Currently Learning: .NET (C#), Google Cloud Platform (GCP), Web Security

---

EDUCATION

Open-Source Applications Development - National Telecommunication Institute (NTI) *(Oct 2025 – Jan 2026).*
Bachelor's Degree in Accounting – Cairo University *(2018 – 2021).*
Diploma in Fashion Design – MSA University *(2021 – 2023).*

CERTIFICATIONS & PROGRAMS

Build with AI – Google (2026) – GCP & AI Fundamentals

EXPERIENCE

Full Stack Intern – CodeAlpha

- Developed responsive web interfaces using React and modern CSS frameworks
- Collaborated on real-world projects, contributing to features and bug fixes
- Used Git and GitHub for version control and team collaboration
- Assisted in building and consuming REST APIs

PROJECTS

ASP.NET Core REST API (CRUD) – Backend Developer

- Built a RESTful API using ASP.NET Core and Entity Framework Core
- Connected application to SQL Server using DbContext
- Implemented full CRUD operations (GET, POST, PUT, DELETE)
- Used EF Core migrations for database schema management
- Resolved dependency conflicts and worked with .NET CLI tools
- Applied MVC pattern and ORM-based architecture principles
  https://github.com/khairyazedan/dotnet-sql-api-crud

X-Clone Social Media Platform – Full Stack Developer

- Built a secure full-stack social media application inspired by X (Twitter)
- Developed using Next.js, Node.js, TypeScript, and MySQL
- Implemented authentication, posts, likes, and comments system
- Designed RESTful APIs and managed relational database structure
- Focused on secure data handling, input validation, and scalability
  https://github.com/khairyazedan/SocialMedia_NextApp_MySQL

Estate Hub – Full Stack Developer

- Built a full-stack real estate platform using React, Node.js, and MongoDB
- Implemented authentication and RESTful APIs
- Designed responsive UI with focus on performance and UX
- Managed dynamic property listings and filtering features
